

Linear Ultrasonic Plastic Tube Fill-Seal Machine

TFS-108

Application:

For toothpaste, Cosmetics, Medicine, Food, Industrial Articles, and Various Sealing for Soft Tube.

Feature

1. It adopts Ultrasonic Sealing device.
2. Overload protection, phase separation protection, power-fail protection.
3. Large ultrasonic output power to ensure the sealing quality of various tube size and material.
4. With tube end trimming
5. Safety protection cover.
6. Easy Change working mold for different tube diameter.
7. Adjustable tube length
8. Machine include a gear pump filler

Specification

Model		TFS-108
Tube Size	Diameter	13-50 mm
	Length	70-250 mm
Filling Range		3-250 ml
Compress Air		0.5-0.8 Mpa
* Capacity		8-15 pcs / Min
Voltage		220V / 1 Phase , 50/60 Hz
Power		1KW

* Real Capacity depends on Filling Volume and Tube size
